Message of KCSR

In The Name Of Allah The Merciful

Thanks to Allah almighty and peace be upon the prophet of mercy Mohammed and his household.

Then...

There is no doubt that the allegiance and loyalty walk by millions of faithful at the Arbaeen pilgrimage to the holy shrine of Al-Imam Al-Hussain "pbuh". And the generous efforts made by the supervisors of processions, the holy shrines and the governmental entities with all of their departments, as well as the volunteer teams and civil society organizations. Those efforts possess a very important role in both domestic and international fields, as they represent a bestowal that you don't witness nowadays, not to mention that they date this holy walk that maintained its presence through what was written across generations until today where it takes new and modern forms.

From this point, the Karbala Center for Studies and Research has made this pilgrim on the top priority of its strategic projects, by beginning to write "The Encyclopedia of Al-Arbaeen Pilgrimage", which represents a documentary encyclopedia that studies the most fundamental dimensions of this holy ritual, beside the establishment of an annual international conference titled "The International Scientific Conference For The Million Arbaeen: The Meanings And Indications", followed by scientific workshops and specialized seminars included with the most important studies and questionnaires related to the Arbaeen walk. These efforts have been culminated with the establishment of "The Academic Council of The Arbaeen Million Pilgrimage", that included a large number of Iraqi professors in various human and scientific fields.

In order to document all the activities related to this pilgrimage, , the KCSR has opined to present this annual statistical bulletin that shows all the data, statistics and information regarding the effort made by ministries, directories and governmental institutions, as well as the departments of the holy shrines of All-Imam Al-Hussein within multiple topics, most of which (the numbers of Arab and foreign pilgrim, the efforts of governmental ministries such as the health ministry, municipals ministry and transport ministry, as well as the oil ministry, interior ministry and tourism ministry, in addition to the number of local, Arab and foreign processions, and a full details of the departments of the holy shrine of Al-Imam Al-Hussein).

All these effort come as important tributaries to the great strategic project in which the KCSR has made a significant progress by including the Arbaeen pilgrimage to the UNESCO's Intangible Cultural Heritage list as a human heritage of the Iraqi people over the history.

So, we ask Allah almighty to bless the effort made by faithful people who have worked with all hardness and dedication to serve the pilgrims trekking to the holy shrine of Al-Imam Al-Hussein "pbuh" throughout the duration of the Arbaeen pilgrimage, and to dedicate the result of this effort purely for Allah, as we thank the religious superintendent of the holy shrine of Al-Imam Al-Hussein, sheikh Abdulmahdi AL- Karbalai for his unlimited support to the Arbaeen project. Also, we would give our thanks to Mr. Mohamed Ali Al-Hilo, and the director of Karbala Center for Studies and Research Mr. Abdulameer Al - Quraishy and the members in the advisory body of the KCSR and all those who contributed to the preparation of this bulletin, including Mr. Adel Moussawi, the Karbala' governor advisor for financial affairs. In addition to all institutions, government directorates and the departments of the holy shrine of Al-Imam Al-Hussein, in order to make this bulletin accessible to scholars and readers. last but not least, we thank Allah almighty for all of his graces upon us.

In The Name Of Allah The Merciful

Thanks to Allah almighty and peace be upon the prophet of mercy Mohammed and his household.

Then...

The statistical aspect is of great interest to scholars and researchers, because it provides numbers, data, percentages and forms that reflect the importance of any phenomenon.

Due to what the phenomenon of the holy Al-Arbaeen pilgrimage constitutes of a great statistical number with all of its aspects and variables, as it characterized by great growth and development, whether it was at the level of numbers of local, Arab and foreigner pilgrims or at the level of what is offered as human, material and service efforts made by local, Arab and foreign processions, as well as those made by volunteers or by the departments of the holy shrine of Al-Imam Al-Hussein and all of governmental directorates and civil social institutions and media outlets.

Based on the work of KCSR's Arbaeen pilgrimage specialized studies department, in building a rock-solid database, in addition to the issuing of the annual statistical bulletins that contain the most accurate and up-to-date statistical information for this Islamic and humanitarian event. It is a great pleasure for the Karbala Center for Studies and Research to submit the 2017's Arbaeen pilgrimage annual statistical bulletin.

Bulletin objectives:

The Karbala Center for Studies and Research is aiming to prepare and issue the annual statistical bulletin for the 2017's holy Arbaeen pilgrimage of Al-Imam Al-Hussein "pbuh" in a periodic and organized manner according to the existing methodologies and concepts. The aim of this bulletin is to provide statistical data and information on various aspects of Al-Arbaeen pilgrimage for researchers and interested parties, as well as to be a large archives for the efforts made by organizations and departments throughout the Arbaeen pilgrimage.

First – number of local, Arab and foreign pilgrims

Table (1): Number of local, Arab and foreign pilgrims

No.	Country	Number	%
1.	Iraq	12804840	83.35
2.	Iran + general embassies + libraries	2384514	15.49
3.	Pakistan	69330	0.45
4.	Bahrain	37254	0.24
5.	Lebanon	34094	0.22
